Additional info	<p>RER Energy Group is a national leader in solar energy based in Reading, PA. We design, build, finance and sell cost efficient and quality solar energy systems to mid-sized commercial and non-profit organizations. Our mission is to educate clients on optimal ways to obtain solar energy savings. We pursue our mission by focusing on the client's needs and working relentlessly to find innovative solutions that lead to more savings through solar.</p> <p>RER Energy Group has developed the largest community solar array in Iowa, the largest school district array in New York, was recently ranked the #1 commercial solar developer in Pennsylvania and is one of the Inc. 5000 Fastest growing companies in America.</p> <p>To date, we have developed more than 40 Megawatts (MW) of solar arrays for over 100 organizations, throughout the United States and Mexico. To fund these projects we have assisted our clients in securing more than \$30 million in State and Federal grants and incentives.</p> <p>We partner with a range of financial investors and work hard to provide appropriate returns to these investors while still maximizing our customer's savings with solar. Our commitment to 'do both' -- provide returns to investors AND maximize savings for solar clients - has led us to develop innovations in financing structures, platforms and partnerships. These efforts were recognized with a prestigious SunShot grant from the Department of Energy through our sister company, Sunvestment Energy Group.</p>

Additional info	<p>A division of Burns & Scalo Roofing Co. that has been around since 1955. Scalo Solar can offer warranties on your solar AND your roof. When your roof leaks, what will your roofer say? "I'll fix that as soon as you move all the solar panels out of the way." We offer the only warranty in the business, that says "We will remove and replace solar panels in the event of a roof leak, at no cost to you". For both our Residential & Commercial clients.</p> <p>Scalo Solar is one of the Largest EPC's in the Mid-Atlantic, with projects from Pennsylvania to Illinois including everything from small residential to the Big Box Stores. We are known for specialty projects and design-build systems like, Bifacial Canopies & Awnings, Hybrid PV-Thermal, Solar Fueling stations, Solar Trees, DC Microgrids & AC-Coupled Systems, combining vegetated greenroofs and solar, and establishing low-growing native wildflowers under ground-mounts that attract local pollinators to help restore the natural environment. Scalo Solar regularly offers Lunch & Learns to local architects and engineers on everything from Solar 101, to Testing & Commissioning, to Financial Analysis & Strategies for Nonprofits & Municipalities.</p> <p>Call us for a free site analysis, and see if solar makes sense for you.</p>
